Description: Pampeanos ladies polo whites are 98% cotton with 2% elastane. The inside leg Lap seam was originally created for this style as the strongest and flattest construction. The strength of the seam is evenly distributed. The top layer fabric being a mirror image of the under fabric layer. The twin needle stitch completes the seam creating a comfortable and durable finish. There is an over-edged ankle hem to avoid uncomfortable pressure points when folded into sock and worn with polo boots. The double belt loop at the back of the jeans gives added strength when playing. The womens whites have a low front rise giving additional comfort when in and out of the seat. whilst the high back rise gives discretion whilst riding. Shallow front pockets. Available in sizes 8 - 16. Please note that the sizes are coming up slightly smaller. so if you are in between an 10 and a 12. go for a 12
